LAY BACK. SIT STRAIGHT UP.
MOVE, TURN, WORK, READ,
CONSULT OR RELAX.
ALONE OR TOGETHER.

Social meeting place

People communicate in a variety of ways. The design for the SitTable understands this and caters to the needs of these divergent varieties. It allows the SitTable to become a thinking place as well as a social meeting ground all the while creating new possibilities by mixing the limitless options of functionality.

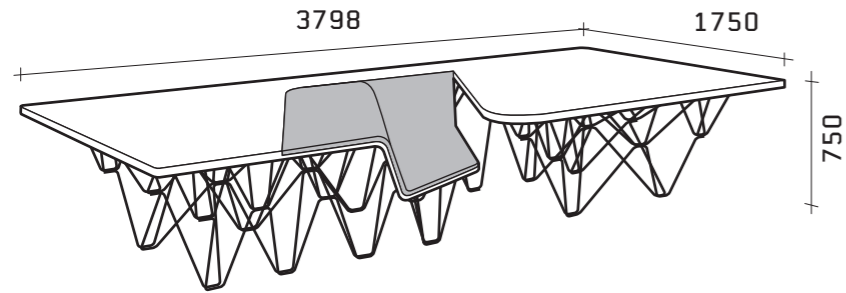

For instance, it may become a quiet reading table found in a library or a work & relaxation place located in an airport lounge. It could simply be a waiting room in a front office or in a school. It may also act as a meeting space for exhibitions or in shops. Whichever role it decides to take on everyone is given the opportunity to discover one's own practical use for the SitTable. It is designed to serve one's own intended purpose for functionality and arrangement.

The hybrid form of the SitTable combines two pieces of multifunctional furniture offering a great variety of space-creating authority to its users. It introduces a fresh approach to the discipline of spatial organization.

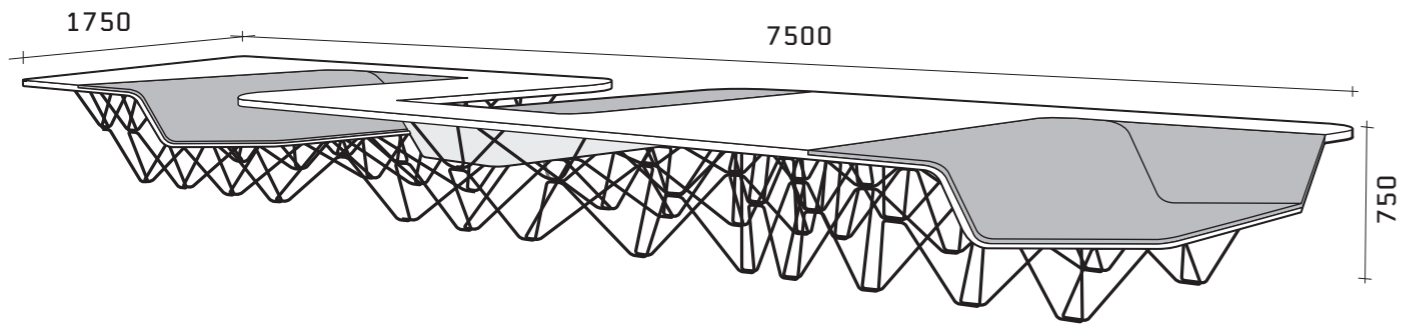

The SitTable is produced by Arco Contemporary Furniture (NL).

Dimensions

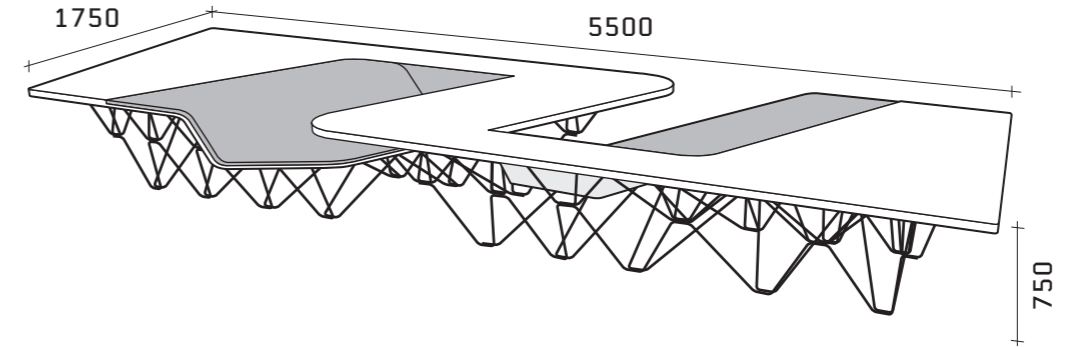

TYPE 1

TYPE 3

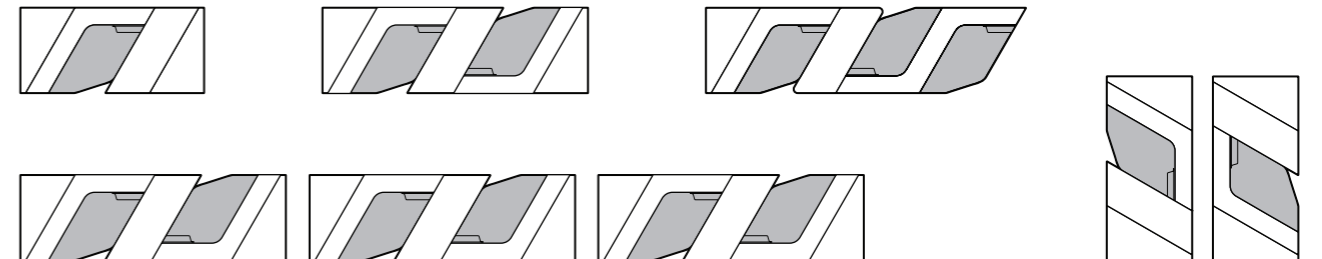

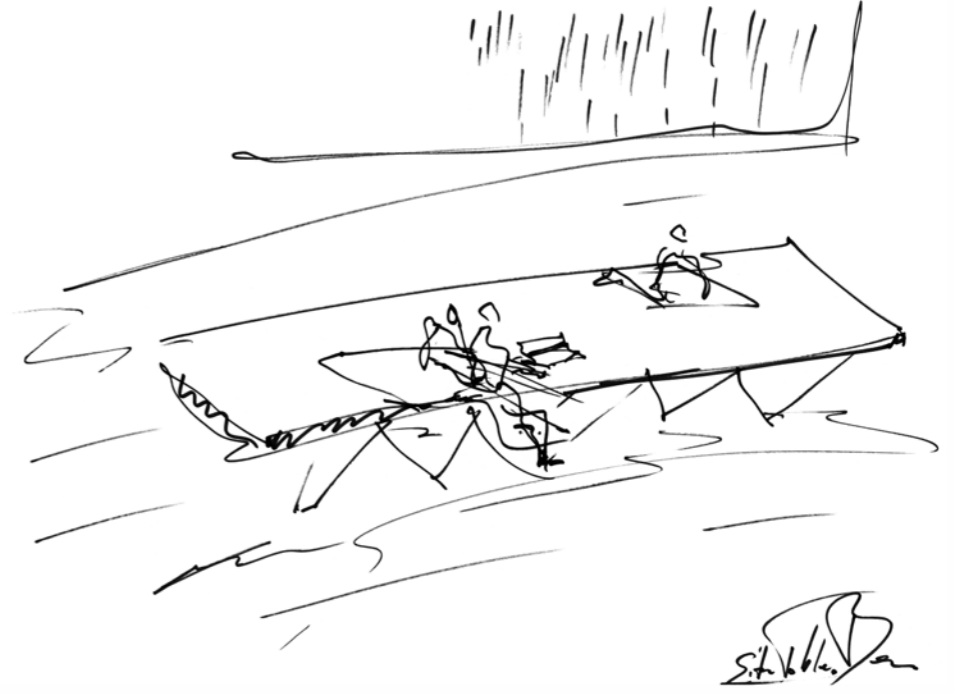

TYPE 2

The tops of the SitTable are finished in white HPL or natural oak. The SitTable allows space for up to 22 persons. You can sit as you wish-in, at or on the table, positioning SitTables in one row, opening up the possibilities of different group sizes holding meetings at the same time at different parts of the table.

Configurations

“At least once a day it brims with energy. We can gather here with 1 or up to 22 people in only a few square meters. A real space saver with unlimited possibilities! Who can call that work?”

“Our best purchase. If you only knew what this get-together spot brings about. Spontaneous meetings, collaboration, exchanges, creativity; it has become the heart of our organisation.”
